GEODRILL LIMITED
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SECOND QUARTER ENDED JUNE 30, 2013

Management's discussion and analysis ("MD&A") is a review of the operations, the liquidity and the results of operations and capital resources of Geodrill Limited ("Geodrill", the "Company" or the "Group"). The consolidated financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS"). This discussion contains forward-looking information. Please see "Forward-Looking Information" for a discussion of the risks, uncertainties and assumptions relating to this MD&A.

This MD&A is a review of activities and results for the three and six months ended June 30, 2013 as compared to the corresponding period in the previous year and should be read in conjunction with, the comparative condensed interim consolidated financial statements for the three and six months ended June 30, 2013, and also in conjunction with the audited annual consolidated financial statements and corresponding MD&A for the year ended December 31, 2012.

This MD&A is dated August 12, 2013. Disclosure contained in this document is current to that date unless otherwise stated.

Additional information relating to Geodrill, including the Company's Annual Information Form, can be found on SEDAR at www.sedar.com.

All references to "US$" are to United States dollars and all references to "CDN$" are to Canadian dollars.

FORWARD-LOOKING INFORMATION

This MD&A contains "forward-looking information" which may include, but is not limited to, statements with respect to the future financial or operating performance of the Company, its subsidiaries, future growth, results of operations, capital needs, performance, business prospects and opportunities. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects", "is expected ", "budget", "scheduled ", "estimates", "forecasts", "intends", "anticipates" or "believes" or variations (including negative variations) of such words or by the use of words or phrases that state that certain actions, events or results "may", "could ", "would ", "might" or "will " be taken, occur or be achieved.

Forward-looking information is based on certain assumptions and analyses made by the Company in light of its experience and perception of historical trends, current conditions and expected future developments and other factors it believes are appropriate. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information contained in this MD&A. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in such forward-looking information, there may be other factors that may cause actions, events or results to differ from those anticipated, estimated or intended. Should one or more of these risks or uncertainties materialize or should assumptions underlying such forward-looking information prove incorrect, actual results, performance or achievements may vary materially from those expressed or implied by the forward-looking information contained in this MD&A.

Forward-looking information contained herein is made as of the date of this MD&A and the Company disclaims any obligation to update any forward-looking information, whether as a result of new information, future events or results or otherwise, except as required by law. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information.

Corporate Overview

Geodrill operates a fleet of multipurpose, core and air-core drill rigs. The multipurpose rigs can perform both reverse circulation ("RC") and diamond core ("Core") drilling and can switch from one to the other with little effort or downtime. Multipurpose rigs provide clients with the efficiency and high productivity of RC drilling and the depth and accuracy of Core drilling without the need to have two different drill rigs on site.

The Company's rigs and support equipment also incorporate a fleet of boosters and auxiliary compressors, which enable Geodrill to achieve high-quality sampling and operations to greater depths.

The state-of-the-art workshop and supply base at Anwiankwanta, near Kumasi, Ghana, provides a centralized location for repair and storage of equipment and supplies, which in turn minimizes trucking, shipping and supply costs and allows the rigs to be mobilized to drill sites with minimal delay.

An experienced management and workforce, a modern fleet of drill rigs and a state-of-the-art workshop and supply base have contributed to Geodrill's reputation as a results-oriented drilling company that strives to achieve greater drilling depths and provide better quality samples than its competitors in the shortest possible time, safely and in a cost-effective and environmentally conscious manner.

Business Strategy

The Company competes with other drilling companies on the basis of price, accuracy, reliability and experience in the marketplace. The Company's competitors in West Africa consist of both large public companies as well as small local operators.

Over the past year, the Company has continued to improve its operations including the following recent developments:

- Increase in the number of drill rigs from 28 at the end of 2nd quarter of 2012 to 37 at the end of the 2nd quarter of 2013;

- Increase in our geographic footprint in West Africa, as the Company has maintained its strong presence in both Ghana and Burkina Faso and has entered Niger and Guinea, and re-entered Cote d'Ivoire; and

- Expansion of drilling for other minerals, as the Company has successfully obtained new clients and contracts to drill for iron ore, uranium and manganese.

Market Participants and Geodrill's Client Base

West Africa has become the scene of intense competition amongst international mining companies as the price of minerals has risen following the 2009 global financial crisis. At the center of this development is the recognition that West Africa hosts some of the largest remaining undeveloped

mineral deposits in the world, containing gold, iron ore and bauxite. The drilling services provided by Geodrill can be applied to both precious and base metals.

The Company's client base is predominately in Ghana and Burkina Faso. For the 2nd quarter of 2013, Ghana accounted for 31% of the Company's revenue and Burkina Faso, Niger, Cote d'Ivoire and Guinea collectively accounted for 69% of the Company's revenue compared to 41% for Ghana and 59% for Burkina Faso and other countries in the 2nd quarter of 2012.

Management's plans include taking advantage of opportunities in other minerals, including iron ore, manganese and uranium which may not follow the same economic cycles as precious metals. In addition, the proximity of Ghana to countries such as Mauritania, Liberia, Sierra Leone, the Democratic Republic of the Congo, Nigeria, Cameroon and Togo positions the Company favorably in its ability to service these markets as well, if it so chooses. The Company's drilling focus is still predominately on gold and is still predominately in Ghana and Burkina Faso; however, the Company has recently successfully diversified into drilling for other minerals and has increased its footprint in West Africa.

The signing of a drilling contract and the actual commencement of drilling do not always happen simultaneously, and in numerous situations there may be a two to three month interval between the signing of an agreement and the commencement of drilling. In addition, given the short-term nature of drilling contracts, there can be no assurance that any contract that the Company currently services will be extended or renewed on terms favorable to the Company. In the event that any of its current contracts are not extended, or renewed on favorable terms, this could have a significant impact on the Company's operations.

There are four customers who individually contributed 10% or more to the Company's revenue for the 2nd quarter of 2013. One customer contributed 23%, one contributed 18% and two customers contributed 10%.

OUTSTANDING SECURITIES AS OF AUGUST 12, 2013

The Company is authorized to issue an unlimited number of Ordinary Shares. As of August 12, 2013 the Company has the following securities outstanding:

Number of Ordinary Shares	42,512,000
Number of Options	2,970,000
Fully Diluted	45,482,000

From January 1, 2013 to August 12, 2013, 360,000 options were issued and no options were exercised, forfeited or expired.

[1] Included in Burkina Faso and other is Niger, Cote d'Ivoire and Guinea.

The Company generated revenue of US$14.59M in the 2nd quarter of 2013, a decrease of 30% when compared to US$20.86M in the 2nd quarter of 2012. The Company was affected by the industry wide slowdown in drilling activities. In general, there continues to be pressure on early stage exploration companies as financing from the capital markets continues to be challenging and there is also pressure on producing companies as they continue to need to manage their exploration costs in light of increasing costs on the production side of their business. Specifically, the Company's revenue decreased as certain customers' jobs came to an end and certain continuing customers significantly reduced the number of drill rigs operating on their sites. The continuing customers have still elected to continue drilling, but with many fewer rigs. Due to the holiday season (Christmas and New Year's) certain clients took the opportunity to delay the resumption of drilling activities longer into the 1st quarter of 2013, versus the past resumptions of drilling activities in the first couple of weeks of January. Meters drilled for the 2nd quarter of 2013 totalled 145,277 which is a decrease of 49% when compared to 287,129 meters drilled in the 2nd quarter of 2012. Consistent with the prior year, the Company expects that its 3rd quarter of 2013 revenue will decline compared to the 2nd quarter of 2013 as wet season will impact demand for drilling services and additional customers drilling programs are expected to end in the 3rd quarter of 2013. The Company has taken immediate steps to control costs, monitor its workforce and is managing its capital expenditures.

The gross profit for the 2nd quarter of 2013 was US$8.01M, being 55% of revenue compared to gross profit of US$9.51M, being 46% of revenue for the 2nd quarter of 2012. The gross profit decrease reflects the decrease in revenue of US$6.27M with a decrease in cost of sales of US$4.76M. The gross profit margin (as defined herein) increased as the percentage decrease in revenue of 30% was less than the percentage decrease in cost of sales of 42%. See “Supplementary Disclosure – Non IFRS Measures” on page 15.

EBITDA (as defined herein) for the 2nd quarter of 2013 was US$6.43M, being 44% of revenue compared to US$6.62M, being 32% of revenue for the 2nd quarter of 2012 . The EBITDA decreased by US$0.19M in the 2nd quarter of 2013 compared to the 2nd quarter of 2012. See “Supplementary Disclosure – Non-IFRS Measures” on page 15.

The EBIT (as defined herein) for the 2nd quarter of 2013 was US$4.09M, being 28% of revenue compared to US$4.83M, being 23% of revenue for the 2nd quarter of 2012. The EBIT decreased by US$0.81M in the 2nd quarter of 2013 compared to the 2nd quarter of 2012. See “Supplementary Disclosure - Non - IFRS Measures" on page 15.

The net earnings for the 2nd quarter of 2013 was US$2.83M or US$0.07 per Ordinary Share (US$0.07 per Ordinary Share fully diluted), compared to net earnings of US$2.78M for the 2nd quarter of 2012 or US$0.07 per Ordinary Share (US$0.06 per Ordinary Share fully diluted).

RESULTS OF OPERATIONS

THREE MONTHS ENDED JUNE 30, 2013 COMPARED TO THREE MONTHS ENDED JUNE 30, 2012

Revenue

The Company recorded revenue of US$14.59M for the 2nd quarter of 2013, as compared to US$20.86M for the 2nd quarter of 2012, representing a decrease of 30%. The decrease in revenue is primarily attributable to the number of meters drilled decreasing from 287,129 meters in the 2nd quarter of 2012 to 145,277 in the 2nd quarter of 2013. The percentage of meters drilled for the 2nd quarter of 2013 can be broken down as to 62% RC, 21% Core and 17% air core as compared to 41% RC, 13% Core and 46% air core for the 2nd quarter of 2012. Air Core drilling is the most economical method of drilling and provides the capability to drill the most meters in the shortest period of time. The reduction in air core meters drilled from 46% in the 2nd quarter of 2012 to 17% in the 2nd quarter of 2013 explains why total meters drilled decreased by 49% but revenue for the 2nd quarter of 2013 only decreased by 30% compared to the 2nd quarter of 2012. In the 2nd quarter of 2013 compared to the 2nd quarter of 2012, the Company's revenue decreased as certain continuing customers have significantly reduced the number of drill rigs operating on their sites. The decrease in revenue in the 2nd quarter of 2013 reflected an industry wide slowdown as many of Geodrill's competitors also experienced decreasing revenue during this period.

Cost of Sales and Gross Profit

The gross profit for the 2nd quarter of 2013 was US$8.01M, as compared to a gross profit of US$9.51M for the 2nd quarter of 2012, being a decrease of US$1.50M or 16%. The gross profit percentage for the 2nd quarter of 2013 was 55% compared to 46% for the 2nd quarter of 2012. The increase in the gross profit is partially attributable to the return of inventory from sites to the stores as certain jobs came to an end in the 2nd quarter of 2013. This had an impact of increasing gross margin by approximately 7%.

The decrease in cost of sales for the 2nd quarter of 2013 as compared to the 2nd quarter of 2012 of US$4.76M reflects the following:

- Drill rig expenses and fuel decreased by approximately US$3.78M in conjunction with the decrease in revenue and the decrease in meters drilled, and the return of inventory from completed jobs.

- Salaries, external services and contractors expenses decreased by US$1.71M due to fewer workers being required in conjunction with the reduced revenue and reduced meters drilled and less services being required.

- Repairs and maintenance decreased by US$0.19M associated with less repairs to the Company's fleet.

- Depreciation and amortization expense increased by US$0.74M due to higher depreciation costs associated with the number of additional drill rigs and related equipment in the Company's fleet.

Selling, General and Administrative ("SG&A") Expenses

SG&A expenses were US$4.30M for the 2nd quarter of 2013, compared to US$5.13M for the 2nd quarter of 2012, or a reduction of approximately US$0.83M, or 16%.

The decrease in SG&A expense for the 2nd quarter of 2013 as compared to the 2nd quarter of 2012 reflects the following:

- Salaries, external services and contractors expenses decreased by US$0.90M due to a reduction in staff during the quarter and less services being required.

Foreign Exchange Gain

The Company realized a foreign exchange gain in the 2nd quarter of 2013 of US$0.31M compared to a foreign exchange gain of US$0.44M in the 2nd quarter of 2012. The exchange gain is the result of fluctuations in the US Dollar against the Australian Dollar, the British Pound, the Euro, the Canadian Dollar, the Ghana Cedi and the Central African Franc.

Profit from Operating Activities

Profit from operating activities (after cost of sales, SG&A expenses and foreign exchange gain) for the 2nd quarter of 2013 was a profit of US$4.02M, being 28% of revenue, as compared to a profit of US$4.83M n the 2nd quarter of 2012, being 23% of revenue.

EBITDA Margin (see "Supplementary Disclosure – Non-IFRS Measures" on page 15)

EBITDA margin for the 2nd quarter of 2013 was 44% compared to 32% for the 2nd quarter of 2012. See "Supplementary Disclosure - Non - IFRS Measures" on page 16.

EBIT Margin (see "Supplementary Disclosure – Non-IFRS Measures" on page 15)

EBIT margin for the 2nd quarter of 2013 was 28% compared to 23% for the 2nd quarter of 2012. See Supplementary Disclosure - "Non-IFRS Measures" on page 16.

Depreciation and Amortization

Depreciation and amortization of property, plant and equipment was US$2.41M (US$1.99M in cost of sales and US$0.42M in SG&A) for the 2nd quarter of 2013 compared to US$1.79M (US$1.51M in cost of sales and US$0.28M in SG&A) for the 2nd quarter of 2012.

Income Tax Expense

Income tax expense was US$0.91M for the 2nd quarter of 2013 compared to an income tax expense of US$1.93M for the 2nd quarter of 2012. The income tax expense of US$0.91M is comprised of withholding taxes of US$0.99M offset by a deferred tax recovery of US$0.08M. The Company's corporate tax rate in Ghana is 25%. In addition to corporate tax in Ghana, the Company pays withholding tax on revenues in other countries in which it provides drilling services. The change in the effective tax rate quarter over quarter reflects the impact on deferred taxes of the slow down of the Company's rig acquisition program.

Net Earnings

Net earnings were US$2.83M, being 19% of revenue for the 2nd quarter of 2013, or US$0.07 per Ordinary Share (US$0.07 per Ordinary Share fully diluted), compared to US$2.78M, being 13% of revenue, for the 2nd quarter of 2012, or US$0.07 per Ordinary Share (US$0.06 per Ordinary Share fully diluted).

SIX MONTHS ENDED JUNE 30, 2013 COMPARED TO SIX MONTHS ENDED JUNE 30, 2012

Revenue

The Company recorded revenue of US$29.62M for the six months ended June 30, 2013, as compared to US$42.52M for the six months ended June 30, 2012, representing a decrease of 30%. The decrease in revenue is primarily attributable to the number of meters drilled decreasing from 605,100 meters in the six months ended June 30, 2012 to 321,871 in the six months ended June 30, 2013. The percentage of meters drilled for the six months ended June 30, 2013 can be broken down as to 54% RC, 22% Core and 24% air core as compared to 41% RC, 13% Core and 46% air core for the six months ended June 30, 2012. Air Core drilling is the most economical method of drilling and provides the capability to drill the most meters in the shortest period of time. The reduction in air core meters drilled from 46% in the six months ended June 30, 2012 to 24% in the six months ended June 30, 2013 explains why total meters drilled decreased by 47% but revenue for the six months ended June 30, 2013 only decreased by 30% compared to the six months ended June 30, 2012. In the six months ended June 30, 2013 compared to the six months ended June 30, 2012, the Company's revenue decreased as certain continuing customers have significantly reduced the number of drill rigs operating on their sites. The decrease in revenue in the six months ended June 30, 2013 reflected an industry wide slowdown as many of Geodrill's competitors also experienced decreasing revenue during this period.

Cost of Sales and Gross Profit

The gross profit for the six months ended June 30, 2013 was US$14.40M, as compared to a gross profit of US$21.04M for the six months ended June 30, 2012, being a decrease of US$6.64M or 32%. The gross profit percentage for the six months ended June 30, 2013 was 49% compared to 49% for the six months ended June 30, 2012.

The decrease in cost of sales for the six months ended June 30, 2013 as compared to the six months ended June 30, 2012 of US$6.64M reflects the following:

- Drill rig expenses and fuel decreased by approximately US$4.84M in conjunction with the decrease in revenue and the decrease in meters drilled.

- Salaries, external services and contractors expenses decreased by US$2.61M due to fewer workers being required in conjunction with the reduced revenue and reduced meters drilled and less services being required.

- Repairs and maintenance decreased by US$0.36M associated with less repairs to the Company's fleet.

  Depreciation expense increased by US$1.31M due to higher depreciation costs associated with the number of additional drill rigs and related equipment in the Company's fleet.

Selling, General and Administrative ("SG&A") Expenses

SG&A expenses were US$8.80M for the six months ended June 30, 2013, compared to US$10.42M for the six months ended June 30, 2012, or a reduction of approximately US$1.62M, or 16%.

The decrease in SG&A expense for the six months ended June 30, 2013 as compared to the six months ended June 30, 2012 reflects the following:

- Salaries, external services and contractors expenses decreased by US$1.54M due to a reduction in staff during the quarter.

- Repairs and maintenance decreased by US$0.17M due to less maintenance on the Company's motor vehicles, administrative vehicles and leaseholds.

Foreign Exchange Gain

The Company realized a foreign exchange gain in the six months ended June 30, 2013 of US$0.30M compared to a foreign exchange gain of US$0.14M in the six months ended June 30, 2012. The exchange loss is the result of fluctuations in the US Dollar against the Australian Dollar, the British Pound, the Euro, the Canadian Dollar, the Ghana Cedi and the Central African Franc.

Profit from Operating Activities

Profit from operating activities (after cost of sales, SG&A expenses and foreign exchange loss) for the six months ended June 30, 2013 was a profit of US$5.90M, being 20% of revenue, as compared to a profit of US$10.76M in the six months ended June 30, 2012, being 25% of revenue.

EBITDA Margin (see "Supplementary Disclosure – Non-IFRS Measures" on page 15)

EBITDA margin for the six months ended June 30, 2013 was 36% compared to 34% for the six months ended June 30, 2012. See "Supplementary Disclosure - Non - IFRS Measures" on page 16.

EBIT Margin (see "Supplementary Disclosure – Non-IFRS Measures" on page 15)

EBIT margin for the six months ended June 30, 2013 was 20% compared to 25% for the six months ended June 30, 2012. See Supplementary Disclosure - "Non-IFRS Measures" on page 16.

Depreciation and Amortization

Depreciation and amortization of property, plant and equipment was US$4.80M (US$3.95M in cost of sales and US$0.85M in SG&A) for the six months ended June 30, 2013 compared to US$3.50M (US$2.9M in cost of sales and US$0.60M in SG&A) for the six months ended June 30, 2012.

Income Tax Expense

Income tax expense was US$1.04M for the six months ended June 30, 2013 compared to an income tax expense of US$3.22M for the six months ended June 30, 2012. The income tax expense of US$1.04M is comprised of withholding taxes of US$1.68M offset by a deferred tax recovery of US$0.64M. The Company's corporate tax rate in Ghana is 25%. In addition to corporate tax in Ghana, the Company pays withholding tax on revenues in other countries in which it provides drilling services. The change in the effective tax rate quarter over quarter reflects the impact on deferred taxes of the slow down of the Company's rig acquisition program.

Net Earnings

Net earnings were US$4.25M, being 14% of revenue for the six months ended June 30, 2013, or US$0.10 per Ordinary Share (US$0.10 per Ordinary Share fully diluted), compared to US$7.21M, being 17% of revenue, for the six months ended June 30, 2012, or US$0.17 per Ordinary Share (US$0.16 per Ordinary Share fully diluted).

SUMMARY OF QUARTERLY RESULTS

	2013		2012				2011	
(in US$ 000's)	**Jun 30**	**Mar 31**	**Dec 31**	**Sep 30**	**Jun 30**	**Mar 31**	**Dec 31**	**Sep 30**

Per Share - Diluted	0.07	0.03	0.02	(0.12)	0.06	0.10	0.03	0.07

The Company's revenue decreased by US$0.44M in the 2nd quarter of 2013 compared to the 1st quarter of 2013. On a quarter to quarter basis, the Company's revenue decreased by US$6.27M compared to the 2nd quarter of 2012. The Company continues to believe that there is an industry wide slowdown in drilling activities as there is pressure on early stage exploration companies as financing from the capital markets continues to be challenging and there is also pressure on producing companies as they continue to need to manage their exploration costs in light of increasing costs on the production side of their business. The Company had certain customers reduce the number of drill rigs operating at their sites and have parked certain rigs. The Company believes that the slowdown in drilling activity will continue throughout 2013 and as such the Company continues to actively bid on new jobs and has taken immediate steps to control costs, monitor its workforce and is managing its capital expenditures.

The Company's operations have tended to exhibit a seasonal pattern whereby the second quarter is typically affected by the Easter shutdown of exploration activities affecting some of the rigs for up to one week over the Easter holidays. For 2013, the Easter shut-down straddled the first quarter of 2013 and the second quarter of 2013. The wet season occurs (in some geographical areas where the company operates, particularly in Burkina Faso) normally in the third quarter, but in the recent years the global weather pattern has become somewhat erratic. The wet season is likely to affect the Company's drilling operations and revenue as companies generally slow operations during this time. However, this is dependent upon the severity of the weather and if alternate contracts can be found in less affected areas of operation. The Company has historically taken advantage of the wet season and has scheduled the third quarter for maintenance and rebuild programs for drill rigs and equipment. The fourth quarter is also affected, due to the shutdown of exploration activities, often for extended periods over the holiday season (Christmas and New Year's of up to two weeks over the period). Revenue patterns can also be impacted by the number of new rigs and the timing of their deployment during a year.

Effect of Exchange Rate Movements

The Company's receipts and disbursements are denominated in US Dollars and local currencies. The Company's main exposure to exchange rate fluctuations arises from certain capital costs, wage costs and purchases denominated in other currencies and borrowings denominated in other currencies.

The Company's revenue is invoiced in US Dollars. The Company's purchases are in Australian Dollars, US Dollars, Euros, Canadian Dollars and local currencies. Other local expenses include purchases and wages which are paid in the local currency. During the 2nd quarter of 2013, the Company realized a foreign exchange gain of US$0.31M (compared to US$0.44M in the 2nd quarter of 2012) predominately as a result of fluctuations in the US Dollar against foreign and local currencies.

SELECTED INFORMATION FROM CONSOLIDATED STATEMENTS OF CASH FLOWS

	Three months Ended		Six months Ended	
	June 30	June 30	June 30	June 30
(in US$ 000's)	2013	2012	2013	2012

Net Cash used in investing activities	(112)	(5,831)	(1,164)	(16,411)
Net Cash (used in) provided from financing activities	(1,624)	71	(3,167)	71
Effect of movement in exchange rates on cash and cash equivalents	(22)	(75)	(22)	32
Net increase (decrease) in cash and cash equivalents	308	1,014	(2,051)	(2,560)

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

As at June 30, 2013 the Company had cash and cash equivalents equal to US$5.51M. As at June 30, 2013 the Company had loans payable of US$9.06M compared to a loan payable of US$3.12M as at June 30, 2012. The increase in the loan payable amount largely related to the funding of the purchases of property plant and equipment in 2012. Since the Company has increased its loans payable amount, the Company continues to monitor its cash and cash equivalents and its capital spending in response to the industry wide slowdown for drilling activities and in conjunction with the loans that need to be repaid.

SECOND QUARTER ENDED JUNE 30, 2013

Operating Activities

In the 2nd quarter of 2013, the Company generated net cash from operating activities of US$2.07M, as compared to generating net cash from operating activities of US$6.85M in the 2nd quarter of 2012. The Company realized a profit before taxation of US$3.81M for the 2nd quarter of 2013 but the impact of changes in non-cash items and changes in working capital items resulted in operating cash flow of US$2.07M.

Investing Activities

In the 2nd quarter of 2013, the Company's investment in property, plant and equipment was US$0.11M compared to US$5.83M in the 2nd quarter of 2012. Plant and equipment expenditures in the 2nd quarter of 2013 mainly included the costs associated with rebuilding existing drill rigs and related equipment.

Financing Activities

During the 2nd quarter of 2013, the Company used cash of US$1.62M relating to the quarterly principal repayments on loans compared to receiving US$0.07M in the 2nd quarter of 2012 related to the issue of shares in exchange for stock options exercised.

SIX MONTHS ENDED JUNE 30, 2013

Operating Activities

In the six months ended June 30, 2013, the Company generated net cash from operating activities of US$2.30M, as compared to generating net cash from operating activities of US$13.75M in the six months ended June 30, 2012. The Company realized a profit before taxation of US$5.36M for the six months ended June 30, 2013 but the impact of changes in non-cash items and increases in trade and other receivables resulted in operating cash flow of US$2.30M.

Investing Activities

In the six months ended June 30, 2013, the Company's investment in property, plant and equipment was US$1.16M compared to US$16.41M in six months ended June 30, 2012. Plant and equipment expenditures in the six months ended June 30, 2013 mainly included the costs associated with rebuilding existing drill rigs and related equipment.

Financing Activities

During the six months ended June 30, 2013, the Company used cash of US$3.17M relating to the quarterly principal repayments on loans compared to receiving US$0.07M in the six months ended June 30, 2012 related to the issuance of shares in exchange for stock options exercised.

Contractual Obligations

Contractual Obligations in US$	Payments Due by						
	Total	July 1 to Dec 31 2013	2014	2015	2016	2017	2018
Operating Leases [(1)]	792,000	136,000	272,000	222,000	72,000	72,000	18,000
Purchase Obligations [(2)]	3,200,000	3,200,000	N/A	N/A	N/A	N/A	N/A
Loans [(3)]	9,734,262	3,614,837	5,747,065	372,360	N/A	N/A	N/A
Total Contractual Obligations	**13,726,262**	**6,950,837**	**6,019,065**	**594,360**	**72,000**	**72,000**	**18,000**

Notes:(1) The operating leases relate to the lease payments for the two real estate properties, as fully disclosed under "Transactions with Related Parties". The annual rent payable shall be reviewed on an upward only basis every two years depending on the average price of two firms of real estate valuators/surveyors or real estate agents. The amount for 2015 represents nine months only as the initial lease term expires on September 30, 2015. In addition, the operating lease includes an amount for a site in Burkina Faso.

(2) The purchase obligations refer to the purchase of additional drill rigs.

(3) Loans refer to the Zenith Term Loan and the Sandvik Equipment Loans, including the related interest.

Contractual obligations will be funded in the short-term by cash and cash equivalents as at June 30, 2013 of US$5.51M and cash flow generated from operations.

OUTLOOK

The Company continues to believe that there is an industry wide slowdown in drilling activities as there is pressure on early stage exploration companies as financing from the capital markets continues to be challenging and there is also pressure on producing companies as they continue to need to manage their exploration costs in light of increasing costs on the production side of their business. The Company had certain customers reduce the number of drill rigs operating at their sites and have parked certain rigs. The Company believes that the slowdown in drilling activity will continue throughout 2013 and, as such, the Company continues to actively bid on new jobs and has taken immediate steps to control costs, monitor its workforce and is managing its capital expenditures. As at June 30, 2013 the Company had 34 drill rigs that were available for operation, three drill rigs in the workshop and two drill rigs on hold with the manufacturer. The Company's drill rig fleet available for operation or planned to be available for operation is noted below:

SUPPLEMENTARY DISCLOSURE - NON-IFRS MEASURES

EBIT is defined as Earnings before Interest and Taxes and EBITDA is defined as Earnings before Interest, Taxes, Depreciation, and Amortization. The definitions are used in this MD&A as measures of financial performance. The Company believes EBIT and EBITDA are useful to investors because they are frequently used by securities analysts, investors and other interested parties to evaluate companies in the same industry. However, EBIT and EBITDA are not measures recognized by IFRS and do not have standardized meanings prescribed by IFRS. EBIT and EBITDA should not be viewed in isolation and do not purport to be alternatives to net income or gross profit as indicators of operating performance or cash flows from operating activities as a measure of liquidity. EBIT and EBITDA do not have standardized meanings prescribed by IFRS and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies. Also, EBIT and EBITDA should not be construed as alternatives to other financial measures determined in accordance with IFRS.

Additionally, EBIT and EBITDA are not intended to be measures of free cash flow for management's discretionary use, as they do not consider certain cash requirements such as capital expenditures, contractual commitments, interest payments, tax payments and debt service requirements.

Gross profit margin is defined as gross profit as a percentage of revenue. Gross profit margin does not have a standardized meaning prescribed by IFRS and therefore may not be comparable to similarly titled measures presented by other publicly traded companies.

The following table is a reconciliation of Geodrill's results from operations to EBIT and EBITDA

	Six months ended		Three months ended	
(US$ 000's)	**Jun 30, 2013**	**Jun 30, 2012**	**Jun 30, 2013**	**Jun 30, 2012**

Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA)	**10,698**	**14,263**	**6,428**	**6,619**

DISCLOSURE CONTROLS AND PROCEDURES

The Chief Executive Officer (the "CEO") and the Chief Financial Officer (the "CFO") of the Company are responsible for establishing and maintaining disclosure controls and procedures ("DC&P") for the Company as defined under Multilateral Instrument 52-109 issued by the Canadian Securities Administrators. The CEO and the CFO have designed such DC&P, or caused them to be designed under their supervision, to provide reasonable assurance that information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in the securities legislation and include controls and procedures designed to ensure that information required to be disclosed by an issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is accumulated and communicated to the Company's management, including its certifying officers, as appropriate to allow timely decisions regarding required disclosure. As at June 30, 2013, the CEO and CFO evaluated the design and operation of the Company's DC&P. Based on that evaluation, the CEO and CFO concluded that the Company's DC&P were effective as at June 30, 2013.

INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of its consolidated financial statements in accordance with IFRS.

There were no changes in the Company's internal control over financial reporting during the period beginning on April 1, 2013 and ended on June 30, 2013, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

RISK FACTORS

A complete discussion of general risks and uncertainties may be found in the Company's Annual Information Form for the fiscal year ended December 31, 2012 which can be found on the SEDAR website at www.sedar.com, and which continue to apply to the business of the Company. The Company is not aware of any significant changes to risk factors from those disclosed at that time.

FAIR VALUES OF FINANCIAL INSTRUMENTS

The fair values of financial assets and liabilities, together with the carrying amounts shown in the statement of financial position, are as follows:

	Loans and Receivables	Other Financial Liabilities	Carrying Amount	Total Fair Value

(i) Transactions with related parties

Transactions with companies within the Group have been eliminated on consolidation.

Transtraders Limited ("TTL") is a company which is owned by Clearwater Nominees Limited and Clearwater Registrars Limited which shares are held on behalf of the Harper Family Settlement which also owns 41.2% (December 31, 2012: 41.2%) of the issued share capital of Geodrill Limited.

Geodrill Ghana Limited originally entered into an agreement with the Harper Family Settlement to lease the Anwiankwanta property for US$112,000 per annum and the Accra property for US$48,000 per annum. The material terms of the five year lease agreement include: (i) the annual rent payable shall be reviewed on an upward only basis every two years based on the average price of two firms of real estate valuators/surveyors or real estate agents; (ii) at the end of the original five year lease term, Geodrill Ghana Limited shall have the option to renew the lease for an additional five year term with similar rent and conditions; and (iii) either party may terminate the lease agreement provided they give the other party 12 months' notice.

On October 1, 2012 in conjunction with the rent review, Geodrill Ghana Limited agreed to lease the Anwiankwanta property for US$140,000 per annum and the Accra property for US$60,000 per annum for a period of two years effective October 1, 2012.

Future operating lease commitments related to the properties are:

	June 30, 2013 US$	June 30, 2012 US$
Payable within one year	200,000	160,000
Payable between 1 and 5 years	250,000	400,000
Total	450,000	560,000

During the three and six months ended June 30, 2013 lease payments amounted to US$50,000 and US$100,000, respectively (June 30, 2012: US$40,000 and US$80,000).

(ii) Key management personnel and directors' transactions

During the six month period ended June 30, 2013, the company granted 360,000 options (2012: 180,000), no options were forfeited (2012: 150,000) and no options were exercised (2012: 36,000).
The Group's key management personnel, and persons connected with them, are also considered to be related parties for disclosure purposes. The definition of key management includes the close members of the family of key personnel and any entity over which key management exercises control. The key management personnel have been identified as directors of the Group and other management staff. Close members of family are those family members who may be expected to influence, or be influenced by that individual in their dealings with Geodrill Limited.

The Group previously paid management fees to Kingston Management (Isle of Man) Ltd. which was also the licensed and regulated fiduciary service provider of the Harper Family Settlement up to May 31, 2013. Throughout 2012, two of the directors of Kingston Management (Isle of Man) Ltd. were also directors of Geodrill. Management fees paid during the three and six months ended June 30, 2013 amounted to US$Nil and US$ Nil, respectively (2012: US$33,948 and US$67,559). One of the directors of Geodrill resigned from Kingston Management (Isle of Man) Ltd on January 31, 2013 and the other director resigned on February 28, 2013.

The Group previously paid management fees to City Trust Limited. One of the directors of City Trust Limited was also a director of Geodrill up to December 21, 2012, when that director resigned from City Trust Limited. Management fees paid during the three and six months ended June 30, 2013 amounted to US$765 and US$765, respectively (2012: US$Nil and US$2,822).

The Group previously paid consulting fees to MS Risk Limited. Two of the directors of MS Risk Limited are also directors of Geodrill Limited. Consulting fees paid during three and six months ended June 30, 2013 amounted to US$Nil and US$Nil, respectively (2012: US$Nil and US$96,581).

Effective May 10, 2013 Clearwater Fiduciary Services Limited was appointed as registered agent to DSI Services Limited and Geotool Limited. From May 31, 2013, Clearwater Fiduciary Services Limited replaced City Trust as registered agent of Geodrill. Two of the directors of Clearwater Fiduciary Services are also directors of Geodrill. Fees paid to Clearwater Fiduciary Services Limited for the three and six months ended June 30, 2013 amounted to US$Nil and US$Nil.

Key management personnel compensation and directors' fees for the period comprised:

	Three month period ended June 30,		**Six month period ended June 30,**	
	2013 US$	**2012 US$**	**2013 US$**	**2012 US$**
Short-term benefits	417,172	449,497	763,238	1,003,543
Share-based payment arrangements	212,752	185,623	334,050	532,749
	629,924	635,120	1,097,288	1,536,292

(iii) Related party balances

The aggregate value of related party transactions and outstanding balances at each period end were as follows:

Balances outstanding as at,	Type	**June 30, 2013 US$**	**December 31, 2012 US$**
Transtraders Limited:			
Payable	Line of credit	923,025	923,025
Total		923,025	923,025

The intercompany payable to Transtraders Limited is unsecured and is interest free. Transactions with companies within the Group have been eliminated on consolidation.

SIGNIFICANT ACCOUNTING POLICIES

The Company's IFRS significant accounting policies are provided in Note 2 to the audited annual consolidated financial statements for the year ended December 31, 2012 and can be found on SEDAR at www.sedar.com.

APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Group adopted the following new standards in preparing these condensed interim consolidated financial statements:

Fair Value Measurement

The IASB ("International Accounting Standards Board") issued a new standard, IFRS 13, "Fair Value Measurement" ("IFRS 13"), which provides a standard definition of fair value, sets out a framework for measuring fair value and provides for specific disclosures about fair value measurements. IFRS 13 applies to all International Financial Reporting Standards that require or permit fair value measurements or disclosures. IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. IFRS 13 is effective for annual periods beginning on or after January 1, 2013 and must be applied prospectively. The adoption of IFRS 13 did not have an impact on the Group's results of operations, financial position and disclosures.

Consolidated Financial Statements

The IASB issued a new standard, IFRS 10, "Consolidated Financial Statements" ("IFRS 10"), which establishes the principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 establishes control as the basis for consolidation and defines the principle of control. An investor controls an investee if the investor has power over the investee, exposure or rights to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the investor's returns. IFRS 10 was issued as part of the IASB's broader project on interests in all types of entities. This project also resulted in the issuance of additional standards as described in (iii) to (vi) below. IFRS 10 is effective for annual periods beginning on or after January 1, 2013 and must be applied retrospectively. The adoption of IFRS 10 did not have an impact on the Group's results of operations, financial position and disclosures.

Joint Arrangements

The IASB issued a new standard, IFRS 11, "Joint Arrangements" ("IFRS 11"), which establishes the principles for financial reporting by parties to a joint arrangement. IFRS 11 supersedes IAS 31, "Interests in Joint Ventures" and SIC Interpretation 13, "Jointly Controlled Entities – Non Monetary Contributions by Venturers". The standard defines a joint arrangement as an arrangement where two or more parties have joint control, with joint control being defined as the contractually agreed sharing of control where decisions about relevant activities require unanimous consent of the parties sharing control. The standard classifies joint arrangements as either joint operations or joint investments and the classification determines the accounting treatment. IFRS 11 is effective for annual periods beginning on or after January 1, 2013 and must be applied retrospectively. The adoption of IFRS 11 did not have an impact on the Group's results of operations, financial position and disclosures.

Disclosure of Interests in Other Entities

The IASB issued a new standard, IFRS 12, "Disclosure of Interests in Other Entities" ("IFRS 12"), which integrates and provides consistent disclosure requirements for all interests in other entities such as subsidiaries, joint arrangements, associates and unconsolidated structured entities. IFRS 12 is effective for annual periods beginning on or after January 1, 2013 and must be applied retrospectively. The adoption of IFRS 12 did not have an impact on the Group's consolidated results of operations, financial position and disclosures.

Separate Financial Statements

The IASB issued a revised standard, IAS 27, “Separate Financial Statements” (“IAS 27”), which contains the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate (non-consolidated) financial statements. IAS 27 is effective for annual periods beginning on or after January 1, 2013 and must be applied retrospectively. The adoption of IAS 27 did not have an impact on the Group's consolidated results of operations, financial position and disclosures.

Investments in Associates and Joint Ventures

The IASB issued a revised standard, IAS 28, “Investments in Associates and Joint Ventures” (“IAS 28”), which prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. IAS 28 is effective for annual periods beginning on or after January 1, 2013 and must be applied retrospectively. The adoption of IAS 28 did not have an impact on the Group's results of operations, financial position and disclosures.

Presentation of Financial Statements - Other Comprehensive Income

The IASB issued an amendment to IAS 1, “Presentation of Financial Statements” (the “IAS 1 amendment”), to improve consistency and clarity of the presentation of items of other comprehensive income. A requirement has been added to present items in other comprehensive income grouped on the basis of whether they will or will not be subsequently reclassified to earnings in order to more clearly show the effects the items of other comprehensive income may have on future earnings. The IAS 1 amendment is effective for annual periods beginning on or after July 1, 2012 and must be applied retrospectively.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Significant areas requiring the use of management estimates relate to property, plant and equipment and inventory valuation, determination of income and deferred taxes, and amounts recorded as accrued liabilities.

Management reviews property, plant and equipment at each reporting date to determine whether there is any indication of impairment. If such an indication exists, then the respective assets or cash-generating units recoverable amount is estimated.

Management reviews inventories at each reporting period to determine whether indicators exist which would lead to a downward revision in the net realizable value of the inventory. Management's estimate of net realizable value of such inventories is based primarily on sales price and current market conditions.

Tax interpretations, regulations and legislations in the various countries in which the Group operates are subject to change and management uncertainty. Current income tax expense is based on tax currently payable or current withholding tax rates in countries in which the group operates. In addition, deferred income tax liabilities are assessed by management at the end of each reporting period and are measured at the tax rates that are expected to be applied to the temporary differences when they reverse.

The amount recognized as provisions and accrued liabilities is the best estimate of the consideration required to settle the related liability, including any related interest charges, taking into account the risks and uncertainties surrounding the obligation. The Group assesses it's liabilities at each reporting period, based upon the best information available, relevant to tax laws and other appropriate requirements.
