Dear Dave,

Thank you so much for your willingness to help us help the children we serve. Your donation will help several children. For some of the children it will pay for them to have surgery, some need amputations before they can come, others need leg braces, shoes and artificial limbs. We also will use the donation to pay for their therapy and for some of them to go to school. I am a strong believer that it is of great importance for the children to have a chance for a good education. This is their only way to become self-sustaining. At the moment we have some in primary, junior high, senior high and poly tech. We are proud that they have been able to achieve academically.

I have included pictures of some of the children who will benefit from this donation.

Kobe is a double amputee he was born with the absence of the tibia in both legs. He has been with us since he has been discharged from the hospital because the doctor was afraid the family would do away with him because of his birth deformity.

Blessing lost her leg because of a violent father. While the mother was nursing Blessing, the husband came after her with a cutlass and instead of hitting the mother cut the baby's leg off.

Abraham was found on the road near our centre. He is a cerebral palsy child, he cannot talk, walk, speak nor feed himself. He is a beautiful boy and we feel very smart, we are trying to get a speech therapist to work with him.

Diana is also a cerebral palsy child. She has been with us for a number of years.

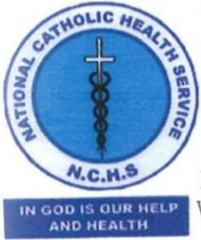

These are some of the many who need to be cared for, loved and given a chance to reach their highest potential.

I thank you for your concern for these special children, they are truly a blessing to us.

Subject: Re: Message from Sister Elizabeth

Dear Dave,

Your promise of a donation has taken a weight off of me. I think I can now leave on the 25th to go home for my leave a little more at peace.

I have given you the story of a few children who will be helped, so many have their own stories. We cannot change their past but we certainly can help them plan for a better future. It has been such a privilege for me to watch them change. From the way they come to us to the way they look when they leave. They are more self confident and with the right kind of education they will be able to make it in life.

Thanks for being our partner in this very worthy cause.

If there is any other information you need please do not hesitate to contact me.

Sister Elizabeth
